

Accio Data

Online ordering software for your employment screening business

Newsletter June, 2006

New automated integrations

Baxter Research, a regional provider of criminal records in California, is now integrated via XML.
American Driving Records, a nationwide provider of driving records, is now integrated via XML.
National Background Data's Safety 1st product is now integrated via XML.

SchoolCheck Enhancements

Medical sanctions searches, multistate criminal searches, and multistate sex offender searches are now integrated into schoolcheck.
You may now require students to provide a school code before ordering a background report.
"Not listed" schools are now supported with a special form that includes the contact information for the person responsible for screening at the target school.

Researcher Accounts

In addition to e-mail integration, you may now offer accounts for researchers to log onto your system.
Small shops will appreciate the ability to manage work lists, sort work by courthouse, and use "one click completion" for clear reports.

Client Branded Reports

It's now possible to offer client-branded reports to your customers. On these reports, your logo will be removed from the report and your company name will be replaced with the client's company name.

Product Renaming

You can now rename products with your own descriptions on the order form. All you have to do is click on a product description and it turns into a text box you use to edit the description!

Friendlier Address Traces

We now offer a much more readable, compact, and more easily managed address trace format.

President's Corner

The last few months have been very busy for us at Accio Data. In addition to signing on record numbers of new clients, we've been hard at work improving our platform.

Becoming the #1 software provider to the employment screening industry wasn't easy. Staying at the front of the pack is even more challenging -- but that's our commitment to you. Take a look at what we're doing, then give us a call and let's discuss how we can apply our cutting edge together to help you grow.

New Homepage

We now offer a new "dashboard-style" homepage for your clients. If you like it, give us a call and we'll move you over to it today.

Data Provider Showcase

We now offer a listing page that allows you to quickly find data providers who are integrated into your platform. Breaking ground on this page are two new regional providers, Baxter Research on the West coast and New Hampshire Background Investigations on the East. Please visit our Data Providers page regularly for updated listings.
